# AMERICAN FYRE DESIGNS™

## Outdoor Products Collection

Homeowners all over the country have come to realize the allure of fire in their backyards. Fire brings warmth, glow and serenity, encouraging us to relax and unwind. An American Fyre Designs™ exterior fire feature will anchor your outdoor living space and turn your patio into an outdoor sanctuary inviting conversation that flows well into the night – even when there is chill in the air.

From Fireplaces perfect for cuddling up under the stars, to Firetables ideal for entertaining, each product is expertly crafted from innovative glass fiber reinforced concrete (GFRC). GFRC derives its strength from portions of alkali-resistant glass fiber and acrylic polymer blended into durable concrete to withstand the outdoor elements. Modularly constructed for easy assembly, American Fyre Designs™ products are an elegant addition to any outdoor area.

American Fyre Designs™ products are available in a variety of styles, colors and textures to complement any décor. Warm your outdoor living area with American Fyre Designs™.

# Fireplaces

Create enticing outdoor ambiance with an American Fyre Designs™ Outdoor Fireplace. Expertly handcrafted from innovative glass fiber reinforced concrete (GFRC), a variety of styles, finishes, and options are available to select the right fireplace for you.

The Grand Series Fireplaces incorporate wall extension panels to create a more impressive design while keeping the same style and look of the fireplace. Wall extension panels expand upon the body of the Fireplace to create many new decorating opportunities while also providing a beautiful separation to the world behind the fireplace. Most fireplaces are available in vent-free versions which permit you to locate your fireplace in a lanai or other covered outdoor area.

## Feature Highlights

- Modularly constructed as easy-to-assemble components
- Exterior may be recessed on most fireplaces to accommodate field cladding in tile, stone, or other veneer
- Most fireplaces available as Vented or Vent-Free
- All Vent-Free fireplaces are blocked at the top and throat of the firebox
- Most Fireplaces include herringbone firebox liners (excluding Manhattan and Milan models)

# Stainless Steel Cover

A new cover will now be offered for the AFD long firetables (76" Contempo LP Select Long, 72" Legend Long and 72" Iron Saddle Long). Constructed of sturdy 20 gauge stainless steel, a 2" lip on each side makes access easy for handling.

# GFRC Covers

Manufactured out of the same Glass Fiber Reinforced Concrete (GFRC), these protective covers are designed to fit over the firetable opening protecting the burner assembly against wind and rain. They also provide additional table surface when the burner is not in use.
