SPREAD THE WARMTH

ZONE HEATING WITH REGENCY

Add a fireplace to your most frequently used living space and save energy by only heating rooms you use.

HEAT ADJACENT ROOMS WITH THE HEAT WAVE™ - POWER DUCT SYSTEM

Cut down on your heating costs using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces, allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for HeatWave system only), and vent register.

OPTIONS

REGENCY REMOTES AND THERMOSTATS

Create optimal comfort with ease and convenience at the touch of a button with the Regency comfort control system. Our **user friendly programmable controls** can be set, adjusted and programmed for your fireplace to come on at the temperature you want, when you want it. Regency control systems are available with a variety of features to suit your home heating needs.

* Smart thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting, the flame intensity and heat gradually decrease – keeping the ambience of your Regency fire on with less heat output and the option to turn it off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

MAXIMIZING COMFORT AND EFFICIENCY

Regency fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features:

- Adjustable flame/heat control
- Heat radiating ceramic glass for maximum radiant heat
- SureFire electronic ignition switch with battery backup features fuel saving intermittent pilot ignition that conserves energy when not in use
- **Power's Out, Heat's On.** All Regency gas fireplaces operate safely without electricity. Never worry about being cold during a power outage again and stay warm all winter long with Regency.

DESIGN VERSATILITY

AstroCap (front)

AstroCap (back)

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency direct vent fireplace. Regency direct vent fireplaces maintain indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors. Direct vent technology allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented **Regency astroCap flex venting system** (11" x 11" 7-1/2" deep including mounting flange).
