NETZEROTM

FIRE

UNLOCK THE POWER OF HOLOGRAPHIC FIRE

The NetZero E-one gives you a unique sensory experience, unlike any electric fireplace you've seen before. You'll be drawn in by the virtual holographic flames that dance against the sculpted logs.

3D illumination captures the appearance and mood of a real wood fire behind a large glass front that makes it feel like a true hearth.

A modern living room interior. In the center, a fireplace with a black frame contains a fire burning over logs. To the left of the fireplace is a dark, textured vase with dried branches. To the right, a light-colored sofa is partially visible. A large, dark, geometric light fixture hangs from the ceiling. The floor is made of dark wood, and a grey rug is in the foreground. The text "NEXT-LEVEL REALISM" is overlaid on the lower left.

NEXT-LEVEL
REALISM

A SIZE FOR
EVERY STYLE

E-one 130

THE PERFECT FIT FOR ANY SPACE

The game-changing realism of the E-one is available in four sizes, 100, 130, 160 and 190. The standard units feature front glass viewing and can be converted to a Left or Right Corner Style with the addition of a Bay Style kit, with three-side viewing. For specs, see the back cover.

The go-anywhere design of the NetZero E-one simplifies installation without the need for venting or gas lines. Bring this sensory wonder of fire to almost any space and feel good about doing it.

E-one 130 with Bay Kit

REIMAGINE THE FUTURE OF FIRE

Enjoy the immersive beauty of holographic fire with the carbon-neutral benefits of zero emissions, zero fossil fuels and low energy consumption. Combine the style and features of luxury interiors with the sustainability the world needs.

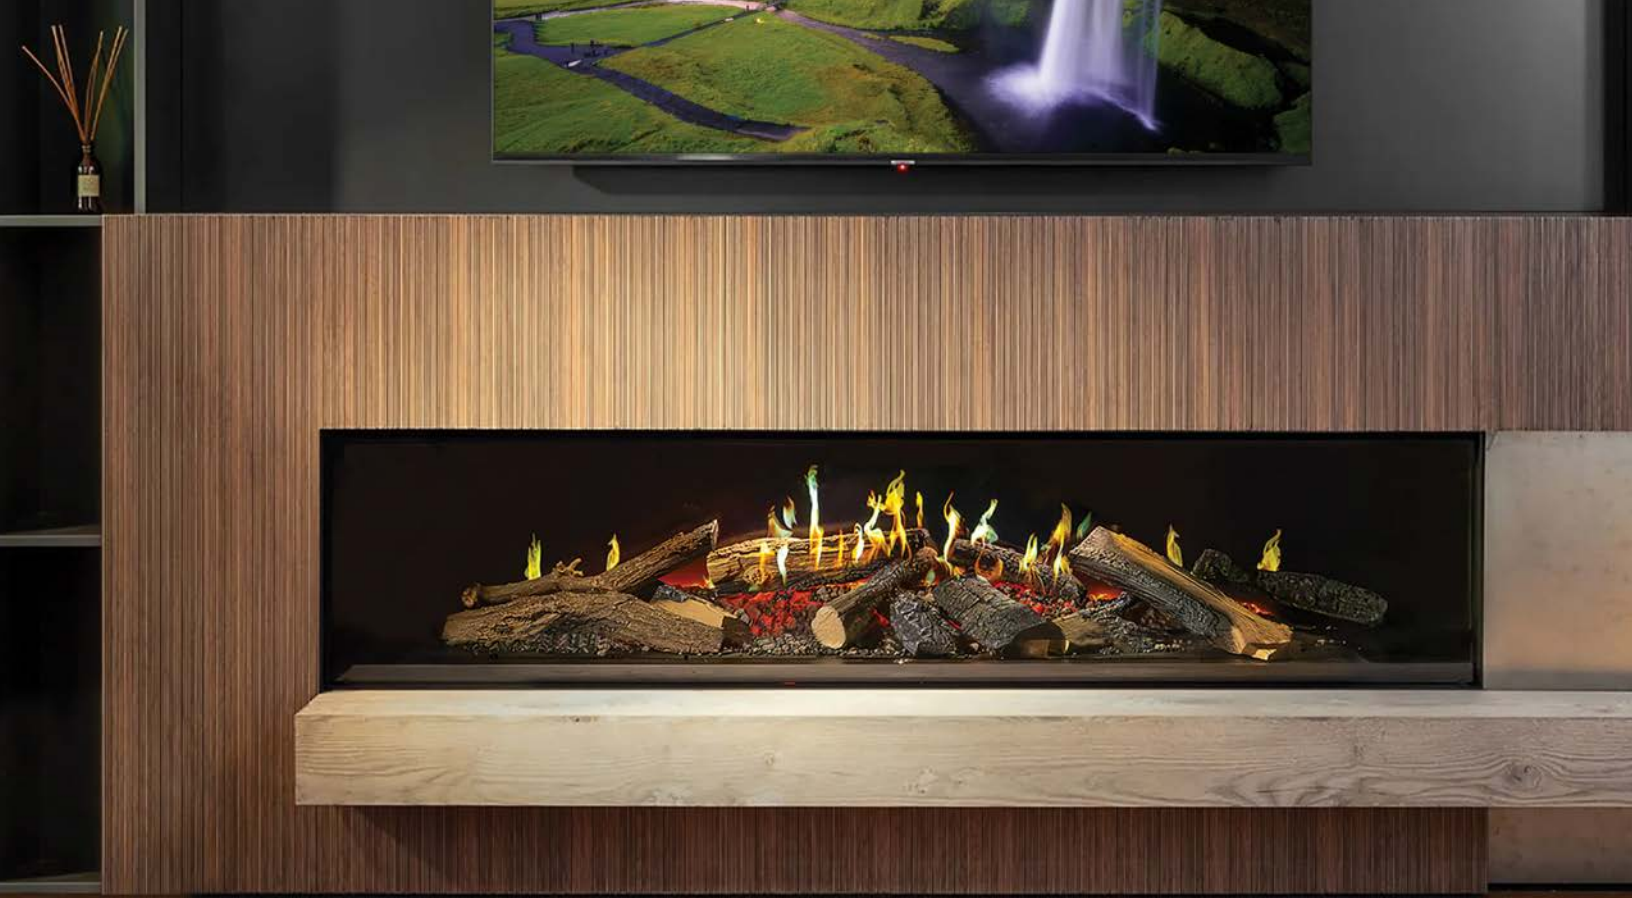

The E-one is at home whether you live in a country farmhouse, a cozy craftsman or a condo on the 15th floor. The flames entice you to gather and turn moments into memories.

LESS IMPACT.
ZERO COMPROMISE.

INNOVATION
IN FLAME

UNPRECEDENTED VIRTUAL DEPTH OF FLAMES

The E-one is an American-made electric fireplace with an ultra-realistic fire thanks to the dual holographic flame fields. It brings depth to the fire you'll have to see to believe.

With practically no maintenance, the E-one is as simple as plug and play! There's nothing to refill and nothing to upkeep, besides the occasional dusting and glass cleaning.

IGNITE YOUR SENSES

Own the moment and match your mood with an array of adjustable settings.

Customize the flame height and tone, the intensity of the glowing embers, interior lighting and the realistic crackling sounds of burning wood. All with our intuitive remote that makes the NetZero E-one “on-off” easy.

You can even add a little warmth on a chilly evening with the Atmos Heating system or just enjoy watching the dancing flames in warmer months with the touch of a button.

CREATE YOUR UNIQUE FIREPLACE EXPERIENCE

Enjoy the calm of lower flames on a quiet evening at home.

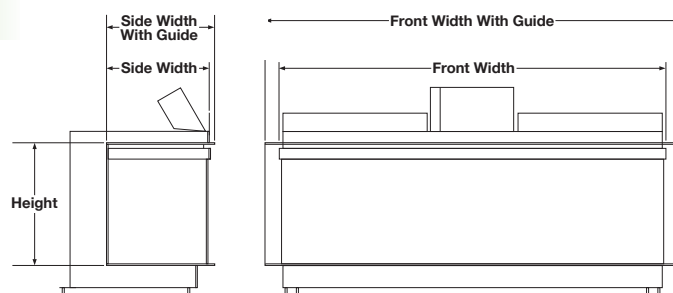

Bring energy to the room with flames on the highest setting.
