

THE GRANDVIEW SERIES

G800P shown with birch log set, herringbone brick panels in black and clean finish install.

One Fireplace, Unlimited Possibilities

Ignite your imagination with the Regency Grandview™ traditional gas fireplace, offering over 960 design combinations and versatile installation options. Choose a classic setup or opt for our Regency Patented Cool Wall System, which allows safe mounting of art or a TV above the unit while reducing costs and enabling the use of nearly any material right to the edge. With endless styling possibilities and innovative features, the Grandview™ series brings your vision to life with unmatched flexibility.

COOL WALL SYSTEM ADVANTAGES

- Place a TV above the fireplace without it getting damaged
- Hang artwork without fear of warping
- Paint will not discolor, drywall will not crack
- No internal fans required
- Use any finish right to the edge of the fire, even wood or wallpaper

- AstroCap® venting system
- Wi-Fi Kit

FIREPLACE OPTIONS

MAXIMIZING COMFORT AND EFFICIENCY

Regency fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features:

- Adjustable flame/heat control.
- Heat radiating ceramic glass.
- **Intelligent Ignition System** features fuel-saving intermittent pilot ignition (IPI), 7-day continuous pilot mode (CPI), and 5 second **Flame Failure Response Time (FFRT)** for more reliable startups - even in cold weather (Electronic Ignition Models Only).
- Power's Out, Heat's On. All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.
- Variable speed blower to maximize efficiency. Our **quiet blowers** increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward and distributing it throughout the room.
- **Proflame GTMF Remote Controls**. A standard feature included with most traditional gas fireplaces, this user friendly programmable remote can be set to start your Regency fire at your desired room temperature and be easily adjusted with the touch of a button.

COOL WALL SYSTEM

Our patented Cool Wall System utilizes natural convection and innovative design to maintain cool wall surface temperatures without any loss in efficiency or need for fans or additional ducting. The fireplace draws in cooler air from floor level, heating and then distributing the air both in front of the fireplace and at ceiling level, enabling total flexibility in finishing materials and placement of televisions and artwork.

NO CHIMNEY? NO PROBLEM!

DIRECT VENT TECHNOLOGY allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented **Regency AstroCap Flex Venting System**. Direct Vent fireplaces are airtight systems that use outside air for combustion, helping maintain indoor air quality and keeping all the warmth generated from your fireplace inside your home. Even when the fireplace is turned off, the sealed system will prevent cold air from entering the home and warm air from leaving. Direct Vent fireplaces allow versatility in **installation and increase fireplace efficiency**.

SPREAD THE WARMTH

ZONE HEATING WITH REGENCY: Add a fireplace to your most frequently used living space and save energy by only heating rooms you use.

HEAT ADJACENT ROOMS WITH THE HEAT WAVE™ - POWER DUCT SYSTEM: Cut down on your heating costs using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for Heat Wave system only) and vent register.

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting the flame intensity and heat will gradually decrease - keeping the ambience of your Regency fire on with less heat output with the option to turn off at any time.

** For models that have a blower. *** For models that have an optional accent light.
